www.techsevern21.co.uk

How can technology help us to tackle the greatest challenge in human history? None of the world's challenges loom as large as climate change, which threatens to disrupt economies and societies on a global scale. Tech Severn 2021 will explore the crucial role technological innovation has to play in our efforts to:

- Reduce our carbon footprint and achieve 'net-zero'
- Drive a new generation of global sustainability
- Mitigate the impacts of climate change
- Protect our built and natural environments

Who is this conference for?

Tech Severn 2021 brings together a line up of world class keynote speakers from the cutting edge of technology, sustainability, biodiversity and government policy. This FREE virtual conference will provide a clear roadmap for the actions we need to take as businesses, individuals, and as a society in the coming decades.

- Small and Medium Sized Enterprises (SMEs)
- Large businesses
- Public sector organisations
- Schools, colleges and universities
- Voluntary and community groups
- Members of the public
